- Integration with our Meeting Room Module
- Unlimited visitors
- Facial recognition

# You're in good company...

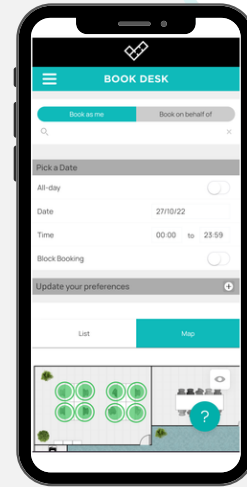

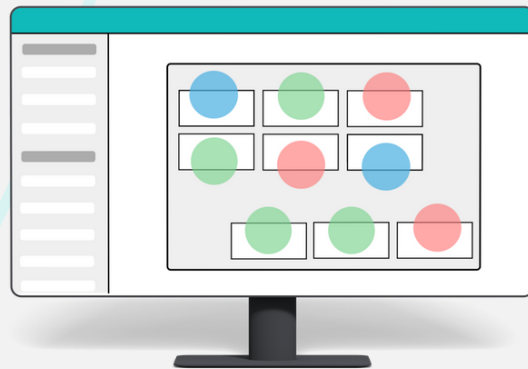

HARVEY NICHOLS

“We were impressed by how quick and easy Space Connect’s desk booking system was to roll out to all CityFibre employees. The system is so intuitive that people started using it as soon as it became available, without us having to formally train them on how to use it.”

**[Paul Smerkinich, CityFibre](#)**

## A **Desk Booking** solution that is a convenient and efficient way for employees to find and book desks

Use Space Connect's Desk Booking app to browse and choose from available desks, set the duration of their bookings, and effectively manage their bookings.

QR Code check-in

Custom Floorplans

Workspace Analytics

Real-time desk availability tracking, ensuring that multiple users do not book the same desk at the same time.

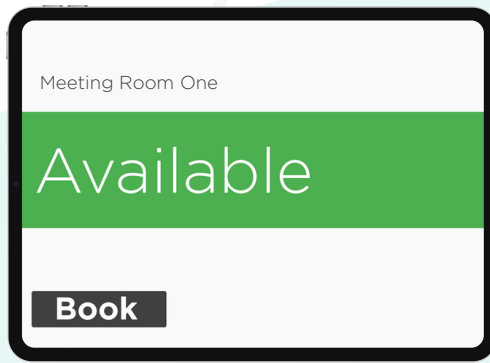

Allows workspace administrators to set booking rules and restrictions, such as limiting the number of bookings per user.

Streamlines the desk reservation process, making it more efficient and convenient for both users and administrators.

Enable Zone-based booking to allow employees to only book Desks & Rooms within their Primary or Secondary Zone.

## A Meeting Room Management solution which has been designed to simplify the management of meetings

Use Space Connect's Meeting Room app to reserve or book any meeting space, book catering and invite attendees from your phone.

Calendar Integration

An innovative room booking solution that simplifies the process of finding and booking meeting rooms.

Microsoft Teams

User-friendly interface, users can easily search for available rooms based on their preferences such as location, size, and amenities.

RFID Card Check-in

Real-time updates, ensuring that users always have the most up-to-date information about room availability.

Allows for easy integration with existing calendar systems, making it even easier for users to manage their meetings and bookings.

Overall, streamlining of the room booking process, saving time and increasing efficiency for businesses and organisations.

## An effortless **Visitor Management solution** designed to efficiently manage and track visitors

Use our Visitor Management to easily create and manage a tailored and branded visitor experience to integrate seamlessly with your meeting room management.

Facial Recognition

✓ Pre-register visitors in advance to streamline the process and eradicate the necessity for manual sign-ins.

Custom Branding

✓ Print visitor badges prior to arrival for added convenience.

Visitor Analytics

✓ Administrators can efficiently oversee the list of checked-in individuals during emergencies using the PWA.

✓ Add notes to a visitor record to capture crucial information about their visit.

## **Workspace Insights** that allows data and analytics to be viewed in real time for utilisation, behaviour and trends

Complete with MS Power BI free of charge, Workspace Insights provide you with key information allowing you to make data-driven decisions within the workplace.

Occupancy trends

Monitor headcount and workspace capacity.

Analyse event booking and space usage trends.

Power BI reporting

Full data extract capabilities.

Available for Desks, Meeting Rooms and Visitor Management modules.

Detailed reports

# Hardware & Software Integrations to enhancement and simplify Space and Visitor Management

## Choose your solutions!

Space Connect integrates natively with leading touch screen room and desks panels such as iPad and Android, as well as room sensors.

Room Sensors

---

## Compatible SSO Integrations

Space Connect offers integration with MS 365 & GSuite which enables simple management of desks, meetings, and visitors using authenticated SSO services.

---

## SC Desk Monitoring App

Enhance your desk check-in process with the Desk Monitoring Application, a valuable tool for automating user presence detection at desks. This Windows-based app activates when users connect their computers to docking stations, streamlining the experience.

# Straightforward, hassle free software Implementation and priority Support when you need us

The Space Connect implementation team are on hand as soon as you're ready to get started with your setup. Once you're ready to go live, we offer online support via a chat portal or email.

## Implementation

The onboarding service is offered remotely. Once the configuration is complete a video call will be scheduled for a time that works for both parties. During the call, you'll be taken through the software's features to ensure that you're getting the most out of it.

## Online Support

Space Connect have got you covered with support included in all plans. Their customer service representatives are available to chat online in real-time, directly from your dashboard. You can also raise a ticket via email if you prefer.

## Knowledgebase

The Space Connect knowledge base provides step-by-step instructions for setting up and using all modules, ensuring that everyone can take full advantage of the system with ease.
